Akhtar Ali
65 Years

A dialysis patient since 6 years, now also a COVID survivor - 65-year old Akhtar Ali needs your help. Despite contracting the deadly Coronavirus last year, Akhtar's dialysis never came to a pause at TKC - instead, he was dialysed under the SOPs adopted by the Hospital for COVID-Positive dialysis patients. Akhtar has had multiple renal issues since 2008 and is also hypertensive. Making ends meet is a great challenge - where he once used to be able to work and earn a modest salary, today Akhtar's only means of survival is his meagre pension. Akhtar resides in a rented home in Liaquatabad, and his son, while pursuing his studies, also tutors to bring in a little income.

Help The Kidney Centre continue dialysis for Akhtar and others like him suffering a similar plight.

Naila Saleem
39 Years

Rushed to TKC's Emergency Room, 39-year old Naila's high blood sugar levels led to kidney failure. Today, she is on dialysis since four years. Married and a mother of a 14-year old, Naila is all alone in her struggles - financial stress and marital strife have turned her world upside down. Her husband has abandoned her, her grade-5 going son has had to leave his education, and her brother's family will no longer keep her. Naila lives alone with her son in a rented Orangi Town home, with no income and little support, and needs help to survive.

Please donate generously to support Naila in getting the on-going care she needs.

Muhammad Rahim
39 Years

What began with a complaint of swollen legs led to a diagnosis of kidney failure. Muhammad Rahim came to TKC's Filter Clinic for treatment, where he was later diagnosed with chronic kidney disease and placed on dialysis. He earlier worked as a security guard, but after being on dialysis, his health does not allow him to work such demanding hours - he now drives a rickshaw on daily wage basis and is earning a meagre PKR 200 - 300 on a daily basis to survive. Muhammad Rahim lives in a rented home in Korangi with his wife and a 7-year old son.

Please donate generously to support Rahim's treatment.

**OVER 472 MILLION SPENT
LAST YEAR ON
PATIENT WELFARE**
