197/9, Rafiqi Shaheed Road, Karachi.

**Khan Muhammad**  
(41 years old)

him to work, but he supports his wife and three children by running a fruit shop near home. Khan Muhammad is struggling to meet the cost of his dialysis and medication, please donate generously to support him.

Khan Muhammad has been a dialysis patient at The Kidney Centre for the past five years, travelling all the way from Quetta, Balochistan for treatment. Khan Muhammad first visited a hospital in Karachi as he was suffering from high blood pressure - tests revealed he was suffering from kidney failure. He was immediately referred to The Kidney Centre for further treatment. Kidney failure has been a heavy burden for Khan Muhammad; his health no longer permits

**Sultan Khan**  
(24 years old)

Shortly after, his father also passed away from mouth cancer in 2002.

Sultan left his studies to support his family. He is now married and has one son, and lives together with his mother and younger sister. His mother works from home to make samosas and pakoras and sells them door-to-door. Sultan used to work in a garment factory, but his health no longer permits him to work.

Please donate generously to support Sultan's treatment, he needs dialysis thrice a week to survive.

Sultan was initially diagnosed with high blood pressure a year & a half ago by a community doctor. He took medication, but his blood pressure was not controlled and he didn't receive proper treatment; sadly, his kidneys failed. He has since been receiving dialysis treatment and care at The Kidney Centre.

Sultan's life has been one of great hardship. A young child growing up in an impoverished family in Lyari Town, he lost two brothers owing to kidney failure.

**Reena Iqbal**  
(26 years old)

a shoe shop and bears the responsibility of feeding six children; a very difficult task due owing to meagre resources. Reena's mother suffers from bone problems and Vitamin D deficiency.

Since her father is unable to afford the cost of her treatment, she requires your support to continue her treatment.

Reena is suffering from kidney failure, and visits The Kidney Centre thrice a week for dialysis. She first visited The Kidney Centre in 2009 to get treated for a Urinary Tract Infection; however, on running some tests, the doctor discovered that her kidneys had failed.

Reena's health forced her to leave school after completing the 9th grade. She lives with her family in a small rented house in Surjani Town. Reena's father works in a
